

Mounting:

Matboard - A heavyweight, dry mount board provides mounting at an economical price. Due to the nature of mat board I do not offer sizes larger than 16x20.

Styrene Board - Styrene is a plastic mounting board 2mm thick. Standard color is white. This is one of the best mounting substrates available.

Foamboard - Foamboard is 1/4" thick foam-centered board coated with tough white plastic shell.

Masonite - Standard is 1/8" hardboard masonite. This traditional mounting surface provides a heavy duty, rigid, hard and long lasting substrate.

Canvas - Traditional canvas can be ordered loose or mounted on any of the materials on this page. It can also be wrapped around a wood stretcher frame. Lamination (Matte or High Gloss) is available and protects the canvas from scuffs, scratches and UV light. (See [Canvas Prints](#))

Standout - Standout is a thick lightweight board finished with a black plastic edge and comes ready to display with hanging holes on the backside. Standout is available in two depths: 3/4" and 1 1/2".
